

EXCLUSIVE WINDOW COLLECTION

Series 4000/5000 | Series 4000/5000 Hybrid

QUALITY WINDOWS & DOORS. GREAT SERVICE. EXCEPTIONAL VALUE.

northstarwindows.com

North Star has long been a leader in setting trends, most notably through the quality of our products. A deeper look reveals what makes the Series 4000/5000 truly unique.

SERIES 4000/5000

Available in two frame depths – 4-½" (4000 Series) and 5-¼" (5000 Series) – this full frame window positions the insulated glass unit on the warm side of the building envelope (the interior wall of your home), for reduced condensation and greater comfort. Available in a single-hung, single-slider, casement, and awning.

SERIES 4000/5000 HYBRID

Architecturally inspired, our Hybrid Series window has the same features as the vinyl 4000/5000 series, and offers the benefits of an aluminum exterior in one innovative window design system. This durable design unites the clean lines of an aluminum exterior with the easy maintenance and energy efficiency of a vinyl interior.

IMPRESSIVE FEATURES, UNEQUALED PERFORMANCE

VIRTUALLY MAINTENANCE-FREE EXTERIORS

Pilkington Activ™ Self-Cleaning Glass is available in every North Star window.

This optional self-cleaning glass features a unique treatment that allows the glass to break down organic dirt that collects on the surface. Dirt then washes away with the next rain.

STYLISH ACCESSORIES

North Star offers a range of accessory options, including wood or vinyl jamb extensions that make a seamless transition from the window frame to your interior finish. Exterior accessories include brickmold with built in siding J-channel and nail fins for ease of installation, and a weather-tight seal to the outdoors.

USER-FRIENDLY SCREENS

North Star's innovative EZ-Screen comes standard in all Casement and Awning windows. Featuring a completely hidden retention system, EZ-Screen has smooth edges that won't snag on draperies and is incredibly easy to use – just push-down and pull-out!

STANDARD SELF-LOCKING LATCH

Standard self-locking hardware, available on the single- or double-hung and slider, provides homeowners even greater security and peace of mind.

RECESSED FINGER LATCH

A simple, concealed latching system that is easy to operate, yet offers superior security.

BRICKMOLD OPTIONS

Series 5000 Hybrid with 2" Brickmold and sill extension

Series 5000 Hybrid with 2" Brickmold

CUSTOM SHAPE WINDOWS

Make your house not only a home, but also a work of art by adding custom shape picture or single-hung windows. They are designed just for you to enhance the style and architectural detailing of your home.

AWNING WINDOWS

Awning windows improve airflow and protect your home from the elements, making them an excellent solution for basements, near walkways or above doors and other windows for increased ventilation and light.

PICTURE WINDOWS

Available in extrusions that match all of our operating windows, the picture window's simplicity makes it the most versatile of our line. They can be combined in a series of fixed and operable windows to enhance your décor and view.

CASEMENT WINDOWS

Contemporary styling and convenience is built right in to offer clean sightlines for an unobstructed view. They open and close easily with the simple turn of a handle. Durable multi-point locking hardware comes standard.

SINGLE SLIDER WINDOWS

Offering a large, unobstructed view, our sliders operate with finger-tip ease. Sashes of our single sliders, lift out for cleaning.

SINGLE-HUNG WINDOWS

Single-hung tilt windows deliver traditional beauty with improved security, lower maintenance and increased energy efficiency. Featuring self closing locks and recessed finger latches, the sashes slide and tilt in for easy, safe cleaning. The standard Constant Force Balance system provides a smooth and effortless way to open and close your windows.

COLORS

The vinyl 4000/5000 series is available only in white interior and exterior. The Hybrid series allows you to choose from an assortment of traditional earth tones and exciting architectural colors.

GRILLE TYPES

Between The Glass (BTG)

Our BTG grilles are encased between the two panes of insulating glass, leaving a smooth surface that's a breeze to clean. Grilles between the glass are available in white, pewter, brass and in colors to match the interior and exterior finishes of our windows and doors.

Simulated Divided Lites (SDL)

Our SDL grilles are applied to the outer surfaces of the insulated glass for a more traditional profile and offer the outstanding performance of our energy-efficient windows. Exterior grilles are available in colors to match our exterior color options, while interior grilles come in white.
